Sir:

Examination of this reissue application has been suspended, pending the outcome of application number 11/251,013, which is a divisional reissue application of the present (above-identified) reissue application. That divisional application is now abandoned for failure to respond to an Office Action mailed January 5, 2009. The remaining/pending claims of this present reissue application are the same as the original issued patent under reissue. According to 37 CFR 1.178(a): "... Until a reissue application is granted, the original patent shall remain in effect." Accordingly, Applicant hereby abandons further prosecution of this reissue application (serial number 10/806,086) in favor of the original issued patent (U.S. patent 6,507,881), which patent is still in full force and effect.

No fee is believed to be due in connection with this submission. If, however, any fee is believed to be due, you are hereby authorized to charge any such fee to deposit account No. 20-0778.

Respectfully submitted,

/Daniel R. McClure/
